Our Mission

Renewing lives and growing disciples of Christ

Sunday 28th October

Psychologists and scientists suggest that thankfulness is one of the major things we can do that actually improves our physical health and well being.

In the psalm today the writer expresses thanks and praise to God even though their life is difficult and they are having troubles. **Isn't it amazing that people for millennia have recognised the benefits of praise and thankfulness?**

Unfortunately the psalmist uses the words '**fear the Lord**'...**what they are really saying** is, *think* of the Lord (God) with reverence and awe and deep respect. Fear is an old word for these things.

So...we are thankful and deeply in awe and wonder at the comfort and grace of the Lord especially when things are difficult. Praise the Lord.

Susan

Our Vision

**A family of Jesus Christ's disciples,
empowered by His love, obedient to His
commands and seeking to be like Christ to others.**
